I am George, I am the eldest and Peachie is next to me. She is the second eldest offspring in the family. She is born in the month of July and she is the only girl among us. Since her childhood Peachie is very jolly, easy to go with and very understanding to the fact that she is handicapped and willing to help people. For me, if she is not around, she is a host on my part because being my sister she is always ready to lean on and with open hands to give her opinion and ideas to things that need critical decisions. Having these kinds of disposition and characters - maybe it is brought about by her good upbringing in the family rooted from a family with strong religious foundation, peaceful and civic-spirited.

Lately, she is working at Family Services as Direct Service Worker to clients w/ disabilities and retardation for 6 months now. It can see in her the enjoyment and vocation of doing their job patiently because is passionate and lovable to the needy people.

Lastly, Peachie envisioned and dreamed to pursue such level of education to upgrade her knowledge of the pace of time and to be of important use for business and livelihood in a world eventually our family would be benefited in the long run.

This is just a small profile about my sister Peachie from Longman house.

Respectfully yours,
George Longman
